GILROY

Santa Clara County, California
 The Home of the Prune

Population 3600.

Elevation 191 feet.

Twenty miles to the Pacific Ocean, a climate of comfortable temperatures at all seasons.

The sun shines 85 per cent of the day hours in summer and 60 per cent in winter. Gentle and pleasant wind averaging 5.7 miles per hour.

A friendly town of shady streets and quiet peaceful homes surrounded by thousands of acres of fruit, dairy, poultry, garden and flower seed farms and cattle ranges in the southern end of the famous Santa Clara Valley noted for the high quality of its agricultural products.

MONTEZUMA

"The Progressive School of the West"

PRIMARY — ELEMENTARY
HIGH SCHOOL

Preparatory to College—East and West

LOCATED on a 300-acre tract in heart of Santa Cruz Mountains, five miles from Los Gatos. One of the best equipped boys' schools in California. Twenty-five buildings — all modern. Pueblo dormitory for smaller boys.

PROGRESSIVE PLAN OF EDUCATION — Sound training in fundamental processes. Twenty-two instructors, each an expert in his own field. Self-government a special feature. All students required to participate in daily physical education program. Major sports under guidance of trained coaches of wide experience. Accredited by Stanford, California and leading Eastern Universities. References as to character, health and scholarship requested of each applicant.

POLK'S LOS GATOS CITY DIRECTORY 1931

Los Gatos, in the fertile Santa Clara Valley, is on the Southern Pacific Railroad, 12 miles southwest of San Jose, the County Seat, with which it is connected by street car and bus lines; 50 miles south of San Francisco. All lines of business are well represented, while poultry and fruit raising are profitable and growing industries. Los Gatos has excellent school advantages, which include Union High and Grammar Schools, while the Montezuma Mountain School for Boys is located nearby. The population is 4,500.

ONE OF 200 POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS

There are over 300 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents—the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

POLK'S LOS GATOS

Directory of Householders, Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide 1931

COPYRIGHT, 1930, BY R. L. POLK & CO. OF CALIFORNIA

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes nor responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

LOCATING MISSING HEIRS FINDING LOST PERSONS

**This is only one of the many offices
that the modern directory
successfully fills**

The directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the city directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

Make More Use of Your City Directory !!

A CALL WAS LEFT FOR YOU. WHOSE PHONE NUMBER IS IT?

The Answer is in the Numerical Telephone Guide in back of this book

MOUNTAIN VIEW

Situated on the main line of the Southern Pacific, 12 miles northwest of San Jose, the county seat, and 36 miles south of San Francisco The population is 4,000, of which 1,100 are employed in the twenty industrial plants of the city. Prunes and apricots are profitable crops, and a large portion of the yield is canned and preserved in canneries located here. The Mountain View Chamber of Commerce will gladly furnish additional information.

POLK'S SANTA CLARA

Directory of Householders, Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide

1931

COPYRIGHT, 1930, BY R. L. POLK & CO. OF CALIFORNIA

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

YOUR CITY DIRECTORY—THE BINNACLE OF BUSINESS

The seas of industry, while uncharted in many respects, are very definitely indicated in the modern "log" of business—the City Directory

Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is passive while the buyer is active. On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

A CALL WAS LEFT FOR YOU. WHOSE PHONE NUMBER IS IT?

The Answer is in the Numerical Telephone Guide in back of this book

YOUR CITY DIRECTORY—THE BINNACLE OF BUSINESS

The seas of industry, while uncharted in many respects, are very definitely indicated in the modern "log" of business—the City Directory

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

YOUR CITY DIRECTORY—THE BINNACLE OF BUSINESS

The seas of industry, while uncharted in many respects, are very definitely indicated in the modern "log" of business—the City Directory

When People "Want"!!

THEY LOOK IN THE

CITY DIRECTORY

(CLASSIFIED SECTION)

¶ *Is your name under the commodity they seek?*

¶ *If not, that opportunity of routing valuable business to you is lost. It's about the same as if you kept one of your entrance doors locked.*

¶ *Hadn't you better investigate your omnipresent city directory, and convince yourself of how it can help your business?*

Advertising Service

ADVERTISING is the business of telling the greatest number of persons the most interesting facts about any given subject at the lowest per capita cost.

That is all there is to the so-called “psychology of selling.”

R. L. Polk & Co. of California is prepared to analyze any business problem and to recommend the most economical method of marketing the product or service that is for sale.

This service is free.
